The task of initiative is being thought to train the students for attaining success both in academic and commercial or job oriented purpose so that students can build up their career and can avail job both in private and public sectors in India as well as abroad in gulf and Middle East or elsewhere in the world. Arabic language is a rich language and it is one of the languages of U N O. Efforts is being thought to initiate the supplementary classes for practical and spoken Arabic language literature and practices.

WEAKENESS:

Except a few schools, due focus is not being given to the Arabic language and literature. In both the government and private religious schools special attention is being given to Arabic Legal Sciences. Although, it is a rich language, the college and university refuse to introduce curriculum improvements where teaching-learning process is done through Mother Language or the second language. As a result, Arabic language as a subject for specialization at UG Level is only in quantity and not in quality and the academic curriculum is responsible for this unfortunate situation. Consequently, after studying the Arabic language in the school, college and university level, one cannot write a message in Arabic, submit an application in Arabic language or cannot speak same of the correct sentence in it.

OBJECTIVES:

The main purpose of the Arabic Department is:-

- a) To stress the students as well as others who studies and to make them interested to improve the level of Arabic language-study in India.
- b) To give priority in quality teaching-learning.
- c) To initiate innovative teaching method in order to improve learning of Arabic Language.
- d) To focus on the functional aspects of the Arabic language in order to link it to life.
- e) To ensure the studies of Arabic language that there will be immense job opportunities especially in the Gulf Countries for the skilled and proficiency which require quality education to face intense competition.
